

# Udoka Excellence Onweifendi

Full Stack Software Developer

## Career Objectives

*I'm resourceful , resilient and a well trained full stack software developer seeking Java backend software developer job with the goal of achieving excellent performance through creative thinking, unwavering commitment and dedication to task , paying attention to details of the application required functionalities and writing the code in line with the industry best practices with minimal supervision, collaborating with team members and keeping up with the industry trends by leaning continuously and adapting to change.*

### Contacts:

Email: excellenceudoka@gmail.com

Phone: 2348038263824, +2347089021572

Nationality: Nigeria

Gender: Male

### PERSONAL VALUES

- Truth
- Integrity
- Discipline
- Decency
- Spirituality
- Diligence
- Humility
- Commitment
- Love
- Peace

### Experience In Coding

Over 3 years of coding in general and over 1 year of working with spring framework and spring boot in learning and building demo applications.

## EDUCATION

### Lagos state University (2008 – 2012)

Industrial Relations and Human Resource Management  
(Second Class Lower Honour)

## SOFTWARE DEVELOPMENT TRAINING

### National Institute of Information Technology (NIIT)

Professional Diploma in Software Engineering

### UDEMY Certificate On These courses:

- **[New]** Master Java framework Spring 6, AOP, Spring MVC, Spring Boot 3, Thymeleaf, Spring Security 6, Spring JDBC, JPA,REST (by eazybytes)
- **[New]** Spring Framework, Spring Boot, Spring Data, Docker & AWS (by in28minutes)
- Document, Mock, Test APIs using Open API specification & Swagger Tools. Generate code from Open API. Based on OAS 3 ver (by eazybytes)
- Learn & Develop Microservices with Java, Spring Boot, Spring Cloud, Docker, Kubernetes, Helm, Microservices Security (by eazybytes)

## SKILLS

- Core Java
- Spring
- Spring boot
- Spring MVC
- Spring Rest
- microservices
- Spring Data JPA
- Spring Security
- Thyme-leaf
- Python , JavaScript, HTML5
- React
- Postman
- Docker
- Git/GitHub
- People soft
- Leadership
- Strong organization and time management abilities
- Good verbal and written communication skills.

## PROFESSIONAL SKILLS

### **Build Rest API and Web Apps using Spring Boot Thymeleaf , React , Bootstrap and CSS**

#### **Implements:**

- Spring MVC and Custom Validation
- Audit
- AOP for logging for instance
- Conditional bean creation using profiles
- Monitoring using Actuator or Spring Boot Admin
- HAL for Rest Api
- New API paths specification using OpenAPI specification and documentation of existing ones with swagger tool /springdoc-openapi
- Microservices - Configserver, RabbitMQ, Eureka server , Gateway server, docker Compose file, image etc.

#### **Spring Security**

- Authentication and Authorization.
- Role based access
- Cross-Site Request Forgery (CSRF) protection
- Cross-Origin Resource Sharing (CORS) protection
- JWT

#### **Object Relational Mapping (ORM)**

- JPA/Hibernate
- Derived Query methods in JPA.
- OneToOne, OneToMany, ManyToOne, and ManyToMany mappings inside JPA/Hibernate.
- Sorting, Pagination and JPQL.

## NIIT (Ikeja Centre)

### **GROUP PROJECTS**

#### **MS SQL Server Project (2022)**

*Contribution: My Work was used for defense.*

#### **Coding competition (2024)**

##### **Project Name:**

*Local Transport Ticketing System (Rest Api)*

*Contribution: Wrote the major backend code.*

### **OTHERS:**

#### **Udemy Course Projects On These Courses:**

- **[New]** Master Java framework Spring 6, AOP, Spring MVC, Spring Boot 3, Thymeleaf, Spring Security 6, Spring JDBC, JPA, REST (by eazybytes) **Named: Eazy School ( Web and Rest Api version)**
- **[New]** Spring Framework, Spring Boot, Spring Data, Docker & AWS (by in28minutes) **Name: To do App ( Web and Rest Api version)**
- Document, Mock, Test APIs using Open API specification & Swagger Tools. Generate code from Open API. Based on OAS 3 ver (by eazybytes) **Hosted API documentation on GitHub page**

#### **The Database I have worked with:**

- Microsoft SQL Server
- MySQL
- MongoDB

#### **Testing**

*Mockito Framework*
